Dear Mr. Sickman:

Thank you for your most cordial letter of March 14, 1975, regarding the educational program for the Chinese Exhibition for which the Council is providing assistance. We are appreciative of the prompt attention given our inquiries, and are happy that any misunderstandings are being resolved.

As you know, the members of the Council are deeply interested in the Chinese Exhibition, and were most anxious that the educational program be made available to as many as possible within the state, without local cost, through our assistance.

The wording which you suggested, "supported by", would be preferable to "sponsored by" since in this instance there are many sponsors, i.e. the Gallery, the local lecture sponsor, the funding sources, etc. In some instances, it has been found appropriate for MSCA to be credited by an announcement that "this project (or program) is made possible through the support of the Missouri State Council on the Arts." The exact wording is not as important as conveying the fact that MSCA assistance has contributed to the project. I note from an article sent to our office from the Kansas City Times of March 8, 1975, that this knowledge is being spread.

I know that the Council members will be honored to be included in the preview of the Exhibition. I expect to be in Kansas City at that time and look forward to being able to express to you in person our appreciation for your most cooperative efforts.

Sincerely,

RE: FY'75

Application # VAL3

Project Title Educational Programs relating to the Exhibition
of Archaeological Finds of the People's Republic of China

The MISSOURI STATE COUNCIL ON THE ARTS has reserved funds up to
\$ 20,000 on a matching basis, not to exceed 50% of total costs for
the project identified above.

a 3% reserve of \$600 will be withheld.

Other stipulations: To be used for up to 40 lectures as booked
at \$150 each (\$6,000); production costs of audio-visual program
as per budget (\$12,998.93); and printing (pamphlet of essays to
accompany tapes) at \$1,000.

As soon as possible, please provide the information requested be-
low for each event (see sample invoice attached):

1. Name and address of local sponsoring organization.
2. Individual responsible at local level (usually an
officer of the sponsoring organization).
3. Location of event (street, address, and city).
4. Date and time of event.
5. Total contract cost of event.
6. Amount requested of MSCA.
7. Amount guaranteed by local sponsor (do not include #6).

Funds cannot be available for your project without this informa-
tion. Payment delays can be reduced if you provide a memo and an
invoice concerning each event promptly. Performing organizations
are responsible for informing local co-sponsors of their obliga-
tions to provide invoices and any reports which are requested.

The "Report of Events" (form enclosed) MUST be completed and re-
turned to the Council office within 5 days following any event.
Items have been selected from the questions most often asked by
legislators, and for data needed for reports to the National
Endowment for the Arts. Please help us have the necessary data
at hand when needed.

The MISSOURI STATE COUNCIL ON THE ARTS requires that appropriate reference to
Council funding be included in all public relations material, press releases, pro-
grams, and in any other copy related to the program. It is expected that you and
the local sponsor will pursue coverage of the program in all newspapers in the area.
Please do not refer to the assistance as a grant. The MSCA does not give grants
under its enabling legislation. The Council's ability to provide financial assis-
tance for cultural events depends on Missourians knowing Council programs. Please
do not jeopardize the funding of your organization in the future by failing to
include all appropriate credits to MSCA assistance.

If this project will receive some federal funding, all printed material must also
include reference to the National Endowment on the Arts. Projects funded in full or
partial amount by federal funds will also be bound by NEA labor assurances regard-
ing prevailing minimum compensation.

Letter of Agreement

Any change from the terms of this agreement must be requested by your organization in writing sufficiently in advance of the event to permit time for a written response from this office prior to the event.

Your organization and/or the local co-sponsors should maintain records of projects for at least three years following the date of payment. This is a standard procedure for all funding from state agencies, and auditors have the right to inspect at any time the records of any project using state or federal funds. The local sponsor's records must account for the disposition of all funds received from the MSCA.

All agreements for state funding must provide that there will be no discrimination by local sponsors or performing organizations based on race, color, religion, creed, national origin, sex or age in connection with your project.

Further, state policies and Council guidelines require that you give written notice of such commitments to any labor union with which you have bargaining or other agreements.

Your return of the enclosed copy of this letter, with your signature, will indicate your acceptance of the terms of this agreement. NO AGREEMENT EXISTS UNTIL YOUR SIGNED COPY IS RETURNED TO THIS OFFICE.

Many requests to the Council have been tabled because of insufficient funds. The funds allotted will be reserved for your scheduling until November 1, 1974. By that date, you should have sent to this office a written memorandum listing the information requested above for each performance you have scheduled for the period up to June 30, 1975, for which you plan to use MSCA assistance. After November 1, 1974, any funds not committed and reserved by your memorandum will be free for reallocation by the Council.

If you have any questions, please write.

Sincerely,

Emily Rice

Dear Mrs. Rice,

In reply to your letter of March 11th I must say at the outset we have indeed made an error. The letter sent out over the signature of Joan Stanley-Baker was intended for circulation outside the State of Missouri and was not calculated to refer in any way to the educational program sponsored by the Missouri State Council on the Arts. I believe that a number of the people expressing interest in the State of Missouri program have been contacted by phone to correct the matter. There will be, of course, a certain number of lectures in other than our own states, for example Kansas and Nebraska, but these will not come under the Council's sponsorship. A special letter will be sent out throughout the State of Missouri describing in detail the program sponsored by the Council.

The brochure announcing the Exhibition itself, which is sponsored by the National Endowment for the Humanities, was designed for nationwide distribution, and it seemed inappropriate to mention anything so specific as a particular program limited to our state. In any publicity or information we release concerning the Missouri program, full credit will be given to the Missouri State Council on the Arts.

I might ask in this respect what wording you prefer. In regard to the National Endowment for the Humanities we have used the expression "supported by." In the present instance we might say "supported by," or "sponsored by," whichever you prefer, and we will not use the word "grant."

In reference to paragraph 2 of your letter we had understood that the sum of \$150 was all-inclusive covering not only lecture fee but travel as well.

We are most grateful to you for your letter of February 19th with the enclosed list. Invitations to the preview will be posted to all members on the Council. I am sorry your letter of the 19th was not answered earlier, but I have been practically commuting between Kansas City and Washington.

Dear Mr. Sickman:

I have been requested by members of the MSCA to contact your office, again, concerning several aspects of the project on the Chinese Exhibition for which the MSCA is providing \$20,000 financial assistance.

I. You will note that your Letter of Agreement (dated December 5, 1974) has provisions on publicity for MSCA assistance, (similar to requirements under grants from the National Endowment on the Arts and Humanities): "THE MISSOURI STATE COUNCIL ON THE ARTS requires that appropriate reference to Council funding be included in all public relations material, press releases, programs, and in any other copy related to the program. It is expected that you will pursue coverage of this program in all newspapers in the area. Please do not refer to the assistance as a grant. The MSCA does not give grants under its enabling legislation. The Council's ability to provide financial assistance for cultural events depends on Missourians knowing Council programs. Please do not jeopardize the funding of your organization in the future by failing to include all appropriate credits to MSCA assistance."

Our office has recently received copies of a number of announcements, press releases, brochures, and information on the lecture series and slide presentations from various members of the staff for the Chinese Exhibition. None of the material received includes any reference to financial assistance from the MSCA (although credits are noted for the National Endowment on the Humanities grant).

Mr. Laurence Sickman
Page 2
March 11, 1975

I am certain that the omission of any mention of MSCA funding assistance will be remedied as soon as possible by your staff. Please send us copies of corrected publicity materials for our files so that we can be assured that our guidelines have been complied with on your project.

II. On February 19, 1975, we wrote your office regarding possible misunderstanding on the utilization of the \$6,000 reserved for up to 40 lectures within the state, at \$150 all-inclusive fee per lecture, to be paid by MSCA, as booked.

Although we have not yet received a letter responding to our February 19th inquiry, we were informed early last week by MSCA Council Member, Mrs. Charles Price, that she believed that this matter had been adjusted and that up to 40 lectures would be offered without local sponsor cost to interested Missouri groups, from the \$6,000 set aside under your allocation for this purpose.

However, recent mailings of the past week on educational services of the Gallery in conjunction with the Chinese Exhibition received by several Missouri State Council Members from Joan Stanley-Baker, Director, Educational Services (probably as a result of the lists which we furnished your office) give no indication that any financial assistance on this project has been provided by the Council. Furthermore, the mailing lists "costs" as "\$75 plus expenses", not the \$150 fee (including expenses) for which MSCA is to provide full funding (for the first 40 Missouri lectures booked) under the allocation made.

Please let us hear from your office as soon as possible as to what arrangements have been made for the appropriate application of the \$20,000 provided for educational services, and for appropriate recognition of MSCA assistance.

I have tried all day to reach the Museum by phone, without success, to discuss this further with you and/or Ms. Joan Stanley-Baker and/or Sandy Williams or Rob Martin, but your switchboard seems to be overwhelmed with interest over the Chinese Exhibiton. We would appreciate a letter from your office on these matters. Thank you for your attention.

Sincerely,

Emily Rice

Dear Mr. Sickman:

In response to your telephone request of late yesterday afternoon, we are sending you herewith a copy of our list of community arts councils within the state, members of the Visual Arts Advisory Committee, and a list of museums and other organizations which might be most interested in your lectures (based on responses to my recent questionnaire on gallery programming).

We trust that by contacting these groups, you will be able to place lectures across the state. Of course there may be others interested, this is not an all-inclusive list.

As you will recall, when we spoke on the telephone November 18, 1974, I pointed out that while Council guidelines did not allow for payment of specific travel expenses, they could allow for inclusive fees for lectures which included travel, and we revised your request for the lecture bureau summary from the requested \$75 fee and \$75 travel to \$150 total cost per lecture (to include travel expenses). It was the intent of the Council's allocation to provide \$150 total cost per lecture, as booked, up to a maximum of 40 lectures.

It has been brought to my attention that at least one organization in the state that has been discussing with officials of the Museum the possibility of booking a lecture is under the impression that the local sponsor will have to assume travel costs at their own expense. I am certain that you will see to it that this misunderstanding is cleared up and that those to whom lectures are offered know that the \$150 lecture fee to be paid by MSCA includes travel expenses.

Mr. Laurence Sickman
Page 2

We are also enclosing a list of members of the Council. They have all expressed great interest in and support of the Chinese Exhibition, and I am certain they will be pleased to receive your most kind invitation to the opening, although in all likelihood, many will be unable to attend personally.

May I take this opportunity to extend our very best wishes on your outstanding program.

Sincerely,

Emily Rice

中华人民共和国出土文物展览

The Nelson Gallery of Art-Atkins Museum of Fine Arts in Kansas City, Mo. announces educational services in conjunction with "The Exhibition of Archaeological Finds of the People's Republic of China," which opens April 20.

- (1) To those groups which have begun their own educational programs relating to the Chinese Exhibition, art history, or history of material culture, the Nelson-Atkins staff can provide advice and materials. Printed and audio-visual materials are now being produced.
- (2) For interested groups which do not have their own programs, the Nelson Gallery-Atkins Museum is offering the services of Staff lecturers. Using slides and other visual materials, these speakers are prepared to address large groups in many areas of the Midwest. Costs are \$75.00 plus expenses.
- (3) For groups planning to be in Kansas City to see the Chinese Exhibition, the gallery can provide speakers at the groups' hotels for an overview of the collection and of Chinese art history in general.

If any of these services fit the planned requirements of your organization, please write or phone the Chinese Exhibition Office at the Nelson Gallery-Atkins Museum.

Dear Mrs. Melcher:

This is to follow-up your letter of February 5, 1975, regarding the work-book guide for children on the Nelson Gallery oriental collection, and our follow-up phone conversations.

It is agreeable with us, that in compliance with National Endowment on the Arts procedures for one applicant on joint projects, that the application be filed by the Kansas Arts Commission. As soon as we receive a copy from Mr. Jonathan Katz, we will send to the NEA, a letter supporting the requested services for Missouri.

Upon approval of the grant and the award of funds, we will work out funding details regarding the Missouri services with Mr. Katz.

We wish you the best on your project, and will be happy to work with you.

These guidelines have been adopted to meet present needs. It is understood as needs are met, guidelines may change.

Evaluation of application is based on the following:

1. A clear statement of the purpose of the project.
2. Council will respond to reports of previous performance and program success including administrative responsibility to both written and verbal agreements with MSCA by performing and sponsoring organization.
3. Personnel of the implementing organization should be able to mature a program as originally designed and complete the project objectives as agreed upon.
4. Projects should attempt to foster growth and development of the arts in one or more of the following ways:

- a. Introduce the arts to new audiences
- b. Preserve and enrich the cultural resources and cultural institutions of the state
- c. Serve disadvantaged areas, urban and rural
- d. Involve minorities in planning and fulfillment of the project
- e. Present a new approach or an innovative idea
- f. Encourage excellence in all of the arts
- g. Involve Missouri artists in Missouri communities through responsible organizations
- h. Include presentations in schools at all levels (College and University based projects should encourage participation by the general public)

5. FINANCIAL REQUIREMENTS

- a. Funds will be awarded only for projects within the State of Missouri*.
- b. Usually Council funds should be matched 50/50 by local funds**.
- c. In-kind support limited to 10% of total project cost
- d. Budget for the project should be accurate, detailed and appropriate to the purpose of the project

6. The Council ordinarily DOES NOT FINANCE:

- a. Capital improvements:
 - (1) new construction
 - (2) renovation
 - (3) restoration
- b. Supplies and equipment items (except possibly when essential to completion of project)
- c. Touring or performances by non-professional groups
- d. Commission of
 - (1) original manuscripts
 - (2) compositions
 - (3) plays, etc.
 - (4) films
- e. Employment of permanent personnel in institution or organizations on a continuing basis
- f. Employment of supplementary or short-term personnel for services to an

- g. are not open to the public
- h. Acquisitions of property
- i. Travel costs
- i. Scholarships

II. Successful applicant will be required to:

1. Sign a letter of agreement detailing terms with the MSCA and various other agreement forms when applicable.
2. Publicize Missouri State Council on the Arts support during advance publicity and in any printed material used in the project such as programs, handbills, posters, etc.
3. Submit on a Council supplied form within 30 days of completion of the project the following:
 - a. A written financial report
 - b. A program evaluation
 - c. Publicity materials resulting from the project, including: publication materials, photographs and news stories

Categories of projects include such items as:

Touring performances with professional companies

Technical assistance to both professional and non-professional companies

Special Community projects (resident performances, in-house exhibits, Artists-In-Residence, one-time projects designed to serve a specific need)

Traveling exhibits

Workshops, conferences and festivals

Demonstrations, lectures, enrichment projects for civic groups

*Note: Exception is made when Missouri is a participant in projects carried out in co-operation with other State Arts Councils.

** Special consideration in the percentage of Council support can be requested in writing to the Council office, based on cost of event in relationship to the following:

- 1) seating capacity of facility
- 2) population of community
- 3) population of surrounding area (for potential drawing abilities)
- 4) economic profile of community and surrounding area
- 5) history of community support for cultural projects.

Mrs. Emily Rice,

Dear Mrs. Rice,

The past weeks have seen considerable activity in regard to the exhibition of the Archaeological Finds of the People's Republic of China. This has largely been by way of telephoning between this office, the Department of State, and the National Gallery in Washington.

As I am sure you know, all three - Department of State, National Gallery and the Nelson Gallery - have been extremely anxious to conclude our agreements and articles of protocol with the Chinese mission and officials in Peking. Apparently because of circumstances connected with the opening of the exhibition in Toronto, the agreement has not yet been signed, but it is anticipated by all of us, on or about the time of the opening in Toronto August 7th.

In a recent letter from Carter Brown, Director of the National Gallery in Washington, within their knowledge the exhibition will be scheduled for Kansas City from the 20th of April to the 8th of June. This is a somewhat different date than was at first envisaged. I hope you and your associates will understand our position. I do not feel that we can, with surety outline in the necessary detail an application to the Missouri State Council on the Arts for a grant in aid at this time. I gather from your letter of July 1st that such application should be returned to you by August 1st in order to be ready for your September meeting. This will obviously not be possible.

I am writing now to ask if a delay might be permitted, with the assurance that we would make such application at the earliest date that is practical and in a form that would justify the serious consideration of the members of your Council.

As you know, we have planned with the National Endowment for the Humanities an extensive and vigorous educational program which should be particularly effective in our own state since our citizens will have the greatest opportunity to profit by the exhibition.

A high level meeting with representatives of the National Gallery, the Nelson Gallery and the NEH with the National Committee on United States - China Relations is scheduled to be held in Washington on August 12th, when all possibilities of exploiting the potentials of the

Mrs. Emily Rice

exhibition will be given full consideration. Hopefully we will be able to report to you and your committee shortly after. A meeting of this kind will also help us determine the most effective way in which the generous assistance offered by the Missouri State Council on the Arts can best be employed.

Dear Ted and Michael:

We found your suggestions extremely helpful and the grants that were made were very much influenced by your recommendations. Many thanks.

We got a little fouled up with the last minute request for the Chinese show. I was not very happy with the power play politics and almost took it off the docket on the basis that no formal application had been made and the committee I had picked for Kansas City did not have an opportunity to evaluate it and give us their recommendations. However, after sleeping on it, I decided I had a pretty good suspicion what the committee would say and therefore plugged it instead of trying to kill it.

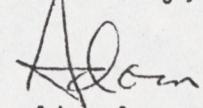

As you know, a \$20,000 reserve has been established if the Chinese show takes place.

I am awfully pleased with the committee. I think this is the proper way to work and I know your committee will be able to give us constructive criticism and evaluation of the projects which we helped finance for your area. As time passes and we get a staff person on the road, it certainly should also be able to give some guidance and direction to the artists and art groups in the area. Needless to say, it must be clear that they are not an autonomous group and will work within the confines established by the Visual Arts Committee.

Thanks for all your help.

Warm regards.

Sincerely,

Adam Aronson

Expected funds for the fiscal year beginning July 1, 1974, were allocated at the June 21-22, 1974, meeting of the Missouri State Council on the Arts. Over \$2,000,000 in requests were submitted to the MSCA against total program appropriations from state and federal sources of \$1,351,000. That situation required that many worthy programs be cut, which was a difficult process for the Council.

You have been allocated funding of \$20,000* by the Council.
This funding is to be used as follows:

For up to 40 lectures as booked at \$150 each; production costs of audio-visual program as per budget; and printing (pamphlet of essays to accompany tapes).

*By Council vote, a 3% reserve will be withheld (\$600) and will be available for expenditure only if the reserve is released by State. Please respond in writing by August 15, 1974, whether or not you will be able to accept the above funding and will be able to mature the program for which you requested assistance from the MSCA. A reply form is attached.

In some instances, it may not be possible to complete programming with less funds than requested. If it is necessary for you to refuse your allocation, rest assured that your decision will be respected. Your rejection of funding will not be interpreted negatively if requests from your organization are submitted in the future. Allocated funds which are not used will be subject to reallocation by the Council at later dates.

Please do not read this preliminary inquiry as a letter of agreement. IF YOU DO DECIDE TO ACCEPT FUNDING AS NOTED ABOVE, A LETTER OF AGREEMENT WILL FOLLOW. If you would be able to accept the Council's allocation only with program, budget-item, or local/matching share changes, please request any such changes from your original application. Changes must receive written approval from the MSCA office in advance.

You will help the arts flourish throughout the state if generated revenues from your projects are such that you would succeed financially without NSCA funds. In that case, you would not have to bill us and your returned funds would be available for Council reallocation. This would be a plus, should you request Council funding in the future.

Members of the legislature who provide funding of state arts programs pay close attention to citizen support, such as personal contact, phone calls, and letters to them regarding support of programs in the state. Your legislators should know your activities. When citizen support is evident to a legislator, that certainly influences his decision making. Should appropriations to the NSCA be increased, it will be possible to further extend funding.

Please keep in touch regarding your organization and programs in your area, and approach the Council for future funding if program ideas present themselves.

Completed applications for projects between July 1, 1975 and June 30, 1976 (FY '76) should reach this office before the first priority deadline, February 1, 1975. A preliminary letter requesting new application forms and outlining your plans for FY '76 can be sent to us any time after September 1, 1974.

REGARDING THE ACCEPTANCE OF ALLOCATED FUNDING FOR FY '75, PLEASE RESPOND ON THE ATTACHED FORM BY AUGUST 15, 1974.

Sincerely,

Emily Rice

Dear Mr. Sickman:

At the June 21 and 22 quarterly Council meeting, it was decided to set aside a special reserve in the amount of \$20,000 for "The Exhibition of Chinese Archaeological Finds of the People's Republic of China". This reserve will be held until we receive a formal application from the Nelson Gallery requesting specific items of assistance.

It would be our hope that plans for the exhibit would be in final form before the September meeting so that such an application could be submitted to our office, acted upon by the Visual Arts Advisory Committee, and be ready for Council decision at the September meeting. This would require that the application be completed and returned to our office no later than August 1, 1974, so that we could take the proper steps of preparation for the meeting.

If this does not seem possible, it would then have to wait until the November meeting for further action. Looking forward to hearing from you soon.

Dear Mrs. Rice,

The article which appeared in the Kansas City Star last Sunday was unfortunately somewhat premature and was apparently picked up by their Washington correspondent. I should like to emphasize that the Exhibition in all aspects will be tentative until contract agreements have been signed by the appropriate American committee and representatives of the People's Republic of China.

The Nelson Gallery - Atkins Museum learned less than a month ago from the Department of State that it had been selected for a second showing of "The Exhibition of Chinese Archaeological Finds of the People's Republic of China" in the United States, contingent upon the approval of the government of the People's Republic of China. Time for preparing detailed budgets and schedules of activities has thus been extremely short. The importance and size of the Exhibition, however, have prompted us to draw up as accurate preliminary budgets and plans of accompanying activities as the moment allows with the assumption that the Exhibition will indeed be coming here next Spring.

To give you and your committees a general idea of the nature of the Exhibition and what it entails, together with the kinds of interpretive activities designed to exploit this unique educational and cultural opportunity, I enclose a copy of the project description which we submitted to the National Endowment for the Humanities.

From my conversations with officials of various agencies in Washington I can tell you that it has been decided that the National Endowment for the Humanities, rather than the Endowment for the Arts, will assume the burden of providing principal financial support for the Exhibition here. The Nelson Gallery Foundation will, of course, share this burden. Nonetheless, both the cost of mounting the Exhibition and of the educational efforts demanded by an exhibition of such signal importance, necessitate generous help from outside. Although official approval of our request for a grant from the National Endowment for the Humanities has not been given, the request does seem to be progressing smoothly.

The importance of this Exhibition to the people of Missouri cannot

Mrs. Emily Rice

be exaggerated. It is, at once, a privilege, an obligation with demands of first-rate performance from us, and an honor in the cultural field seldom afforded our State. Above all else, the Exhibition gives us an unprecedented opportunity to enliven and broaden the educational and cultural horizon of the people of our State. I feel we would be sadly remiss if we did not exert every effort to make the Exhibition as available and intelligible as possible to all levels of potential audiences across the State. In discussing the Exhibition with Dr. Franklin Murphy, for example, he has suggested that we urge all educational institutions, particularly universities and colleges throughout the area to emphasize all facets of Chinese studies during the 1974-75 academic year.

Even now it is not possible for us to submit a detailed and accurate budget for our proposals to you. Indeed, we can only suggest that in consideration of the importance of this project the Missouri State Council on the Arts set aside certain sums which, if the Exhibition does materialize, can be applied to utilizing every potential of the Exhibition throughout the State. In order to give the Council some idea of the kind of project we hope to finance through a Council grant, I am attaching a brief and incomplete list of the areas in which State funding would be most advantageous to us. This is not definitive, nor is it possible to project a detailed budget. The sums mentioned are only provisional estimates. I feel, however, that funding of \$50,000 from the Missouri Council, as mentioned in Lyman Field's letter of May 30th, could be wisely spent in assuring the maximum value of the Exhibition to the people of Missouri.

I must apologize to you and your associates for the tardiness of this letter but it has not been possible to formulate specific kinds of programs at an earlier date.

Please assure the members of the Council that the Trustees and the staff of the Nelson Gallery will deeply appreciate any consideration they may give this request.

Sincerely yours,

Laurence Sickman
Director

Sickman telephoned David Morton, Chairman, Mo. State Council on the Arts

It was Morton's feeling that the State Council should vigorously support the Exhibition and that he hoped they might be able to earmark or set aside, pending an application for grant in aid, a sum of approximately \$50,000. This could be used, according to Morton, not only for educational projects in the state of Missouri, but also for such costs of the Exhibition as the catalogue, etc. He advised that Sickman at an early date, telephone Mrs. Emily Rice, Executive Secretary, in St. Louis, and recommended that at least a letter of intent, if not a direct request for a grant, be sent as early as possible, because a meeting of the Council is set for the 21st of June.

Council policy requires the recommendation of the appropriate Advisory Committee and the approval of the Council in full quorum session prior to official, written commitment of support from the Council.

A formal request for assistance (on Official Application Form) must be submitted to the Council office six full months in advance of the Council meeting at which action on the request will take place unless announced otherwise. Dates of Council meetings can be obtained by writing or phoning the Council office. Project requests will not be presented for consideration for funding at a Council meeting unless they have been submitted in sufficient time for study by the appropriate Advisory Committee, the Council and Commission members, and the staff. NO EXCEPTIONS can be made due to the quantity of requests currently being submitted to MSCA.

All confirmation of support will be furnished to the local sponsor in writing prior to the time of the event. If this confirmation is not received by the local sponsor before the event, Council assistance cannot be assumed or inferred.

Processing delays can often be avoided by submitting to MSCA office an outline of your proposed project prior to submission of application form. Please call or write if you have any questions regarding the application form. It is to your advantage to submit requests for assistance as far ahead of the projected date of an event as possible.

We look forward to working with you throughout the coming seasons.

(1) Project title: Educational Programs relating to the Exhibition of Archaeological Finds of the People's Republic of China
(2) Circle appropriate category: Dance, Educational Enrichment, Film, Music, Theatre, Visual Arts, Other
(3) Detailed description of Project: (Utilize this space before attaching any additional pages deemed necessary. Give names of all performing groups being sponsored, or names of artists, etc.) The purpose of this project is to exploit the educational potential offered by the exhibition of Archaeological Finds of the People's Republic of China. This extensive exhibition contains some 385 objects ranging in time from skeletal remains of about 600,000 B.C., down through the 14th century of our era, illustrating a vast panorama of cultural evolution in East Asia. The exhibition will be shown at the Nelson Gallery from April 20th to June 8th, 1975. This is the last showing in the Western world, and the exhibition will return from here to Peking.

It is generally conceded that this is a unique opportunity for the people of our state to learn more about one of the great civilizations of the world. It is our hope and expectation that a sizable segment of the population of our state may have the opportunity to see the exhibition.

The basic aim of our project is to prepare as large a number of people as possible for the actual viewing of the exhibition, or at the least, to initiate a state-wide program of education concerning China even for those who may not be able to see the display.

The project consists of three parts. The first is to establish a lecture bureau with a maximum of four trained lecturers who will be available during the months of February, March and April to give illustrated lectures devoted to background material concerning China in general, and specifically the objects contained in the exhibition.

The second part of the program would consist of audio-visual material made up in kits to be distributed throughout the state. Each kit would consist of 80 to 100 slides with a sound tape giving general information and descriptions of the slides. The 4 tapes, calculated to run 25 mins. each, would cover the following subjects: (1) The Emergence of Chinese Civilization from Paleolithic times to about the 9th to 8th century B.C. (2) The Rise of the Chinese State, covering Chinese cultural history from around 700 B.C. to the 3rd century A.D. (3) A history of Chinese Ceramics from Neolithic times to the 14th century. (4) The great T'ang Dynasty. Each of these tapes would be prepared by an acknowledged expert on the particular theme.

These audio-visual kits would be distributed to libraries throughout the state, which are estimated at 170, including college and university libraries. The kit would be accompanied by an explanatory sheet stating the relationship of the material to the exhibition, and since the texts would be adjusted to the average layman, a bibliography for those who wished to pursue the subject in greater depth. These audio-visual kits would become the permanent property of the libraries to which they are distributed. Each tape would, of course, acknowledge the patronage of the Missouri State Council on the Arts.

LECTURE BUREAU AND PRINTING BUDGET SUMMARY

The following estimates are predicated on four trained lecturers delivering a total of forty lectures during February, March, and early April.

1. Fee for lecturer	\$75.00
2. Average traveling expenses	<u>\$75.00*</u>
Total cost per lecture	\$150.00
Forty lectures delivered throughout the state	\$6,000

* Note: The \$75.00 suggested is for average travel by car. It is realized that in many instances it would be less, but this is balanced by the fact that should the lecturer travel a considerable distance, it would be necessary to stay overnight.

AUDIO-VISUAL

Mrs. Emily Rice, Executive Director

Suite 410, 1111 South Bemiston

Dear Emily:

I have the notice of the June Council meeting from Lottie Wright for June 21 and 22 in St. Louis.

I regret very much that I will not be able to be at this important meeting, because Mrs. Field and I will be in Europe at that time.

I congratulate you and David and all the others that worked so hard on the tremendous breakthrough which the Missouri Council made with respect to the budget for fiscal 75.

Mr. Lawrence Sickman, Curator of the Nelson Gallery in Kansas City, has been talking to me and to David about the exciting prospect of the great China exhibition coming to Kansas City next March, sponsored by the Peoples Republic of China. In my judgment, this is one of the most significant art collections which will ever come to Missouri and we are indeed fortunate that our state and the Nelson has been selected as the one place where this world-famous exhibition will come in the United States outside of the National Gallery in Washington.

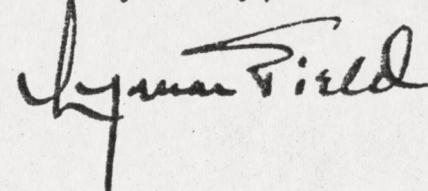

It is my strong opinion that we should support this to the very limit of our funds available. I understand from Mr. Sickman that the cost will be in the neighborhood of \$200,000. The National Endowment for the Humanities is putting up a considerable sum, the sponsors which should include Senator Symington, Governor Bond, National Gallery Directors and others, will be looking to private philanthropy for support, and Sickman estimates to me that they hope to obtain \$50,000 from the Missouri Council. If this funding can possibly be made available, it would be my vote to do it because I do not believe that there will ever be again such a

cultural opportunity for our state in our lifetimes.

With best personal regards,

Yours very truly,

Mr. David Morton
Chairman, Missouri State Council
on the Arts
702 Corby Building
St. Joseph, Missouri 64501

Dear David:

Larry Sickman of the Nelson Gallery just called me to advise about the remarkable international exhibition known as:

The Genius of China, An Exhibition of
Archeological Findings of the Peoples
Republic of China.

This famous art exhibition has already been shown in Paris and in London where it was sponsored by the London Times and the Royal Academy.

It is traveling to North America this fall where it will first be shown in Toronto and then to the National Gallery of Art in December and January.

One other museum in the United States will be selected to receive this remarkable exhibition for showing in March of 1975.

Mr. Sickman is firming up plans on a trip to Washington to obtain substantial support from the National Endowment the State Department and other sources in order to obtain the exhibition for Missouri at the Nelson Gallery.

The over-all total funding is in the neighborhood of \$200,000 and he believes he can prevail on the endowment to take the big end of the support. He will attempt to then fill it out with private philanthropy and other sources. He reasonably and confidentially inquired if

Page 2

this was such a worthy cultural event for Missouri as could be supported by the Missouri State Council on the Arts. I unhesitatingly gave him my opinion that it was such a project as we should support, that our budget had been most substantially increased for FY 75 and that the only question would be the dollar amount.

We did not talk dollar figures at all, but I simply gave him my individual and personal assurance that the Missouri Council would undoubtedly want to assist in some fashion.

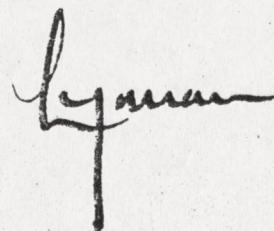

Because I will not be at the June meeting in view of our trip to Europe, I wanted to give you an early warning about this remarkable project for Missouri. Mr. Sickman I know will be getting in touch with you.

It seems to me that the Nelson Gallery is the most appropriate place in America for this remarkable exhibition of Oriental culture and yet in view of the Nelson's great traditions and pre-eminence in this field.

I trust you are canvalescing happily and are not letting yourself get too heavily involved for the time being.

Jo Ann joins me in sending our best regards to you and Cobby.

Sincerely, your friend,

LF/peg
